

## 2017-18 Novice and Atom Hockey in Almaguin

### Official Release;

After much deliberation, exhaustive tabulation of registration numbers and a complete review of both of our Almaguin Minor Hockey Association Novice and Atom programs, we as a board are thrilled to be able to confidently announce that we believe the numbers to be strong enough for us to ice teams in both the **Novice and Atom** Local League divisions for the 2017-18 season.

It has always been and will always be Almaguin Minor Hockey's mandate and mission to provide a place for each and every Almaguin registered player to play, while continuing to provide a fun and competitive atmosphere for players and families alike.

The past few days have seen much hard work and long hours go into the decision making process and we will continue to work hard to ensure that we put the best possible product on the ice for the upcoming season and AMHA seasons beyond.

Our Association as a whole thanks everyone involved in this process for their insights, input, help and tireless effort and extends a thank you to you all for your patience as we sought a viable solution for our young players.

Please consult our website at [www.almaguinminorhockey.com](http://www.almaguinminorhockey.com) for further information on upcoming team ice times etc.

Regards,

Almaguin Minor Hockey Association.

*21 September, 2017.*
